And where are you
in relation...

Horoscope magazines grow in popularity.

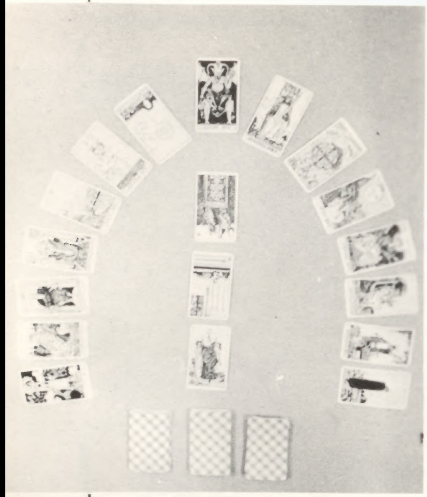

Editor Candy Faught checks astrological globe in library.

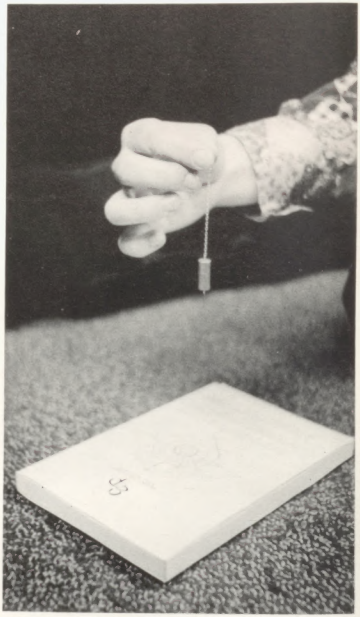

Sun sign jewelry depicts personality and pride.

Popularity and prominence of astrology as well as other occult-related interests seem to have made a comeback in recent years. Hardly a person can admit to not knowing his sun sign, and people display their birth signs proudly by wearing jewelry and often stating how alike their characteristics are to the sun sign characteristics known.

Astrology magazines and guides grow in number and subscriptions as people search for answers through means not pursued ambitiously for hundreds of years.

Related studies which delve into the world of future possibilities include Taro cards and the pendulum. A rebirth of interest in the powers of the pyramid, the lost continent Atlantis, and the great unexplained feats of early man are being questioned and studied again as man seeks ways to explain himself. And to understand and control himself, many have returned to other older arts such as yoga and meditation.

Above left: Practice with using the Taro cards can yield insight into the future.
Above right: The Pendulum is reputedly to answer questions by its swing.

Above left: Meditation has increased in popularity in recent years. Left: Teressa Prince loses control as Missy DeGroot demonstrates theYoga headstand. Middle right: The human aura which extends outside the human body has recentbeen subject to scientific study.

Perhaps musical selections concerning the Age of Aquarius has stirred the astrological interest of youth. Not only do people realize their sun signs, but many claim their natures--fire, air, earth, or water.

The fire signs include Aries, Leo, and Sagittarius. Fire individuals are known for their leadership capabilities, their love of freedom and action, and innovative ideas. Their natures can "fire" others to action.

Mr. Charles Emlund (Leo) puts the fire into his wrestlers.

Mr. Larry Maka (Sag.) demonstrates precision as he explains a difficult math situation.

John Backe (Aries) shows leadership potential as Times editor and co-editor of "Here."

Leatha Johnson (Leo) starred in "Done to Death."

Cheri Townly (Sag.) lives up to her traits. Valedictorian of her class, Cheri has been a leader at Tech the past four years.

Scorpion Candy Faught was pom pon at Tech.

Lisa Massengale (Pisces) excelled in theatrical productions.

Scorpion Mari Jo Thilmont (second from right) proclaims 'there is too much to do in too little time and nobody understands.

Joyce Foster (Cancer) used those Cancerian talking qualities to build school spirit.

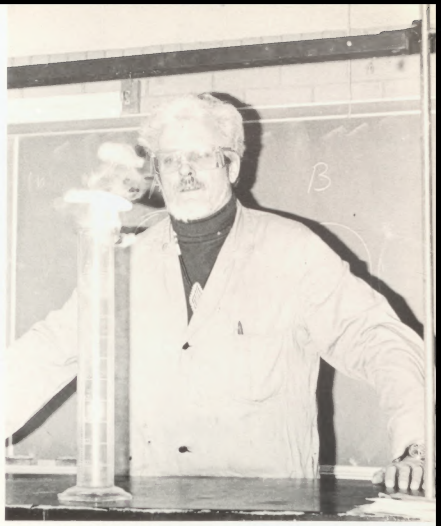

Nancy Carlson (Pisces) achieves in sports, drama, and keeps a high academic record.

Watery signs include Cancer, Scorpio, and Pisces. Scorpions, often considered the misunderstood sign, are energetic, independent, passionate, with strong likes and dislikes. Cancers are talkative and easily influenced, and sympathetic, and Pisces individuals are gentle, reliable, very kind and sensitive, though sometimes not too lucky.

Gemini, Libra, and Aquarius comprise the element of air. Libra individuals show a balancing tendency and deliberate a considerable length of time before arriving at a decision. Aquarius people show great patience and must since their innovative ideas are several years ahead of schedule.

Geminis make good friends, are fun to be with, and usually have a following of fans.

The students of Mr. Ted Erikson (Aquarius) certainly think he may be 50 years ahead.

Glen London (Gemini) shows versatility of his sign by helping drama production.

Sue Henson (Aquarius) served as COE president and led many activities.

Joe (Gemini) Sanchez shows popularity known to his sign.

Brenda Webb (Libra) claims to even have trouble deciding what to wear to school.

The earth signs, Taurus, Virgo, and Capricorn, show qualities of determination, patience, and stradfastness. These people are talented in areas of music and sports as well as the arts.

Due to their persistent prodding after their chosen professions, earth people tend to show great financial gains throughout their lives.

(Capricorn) Ken Bridgman shows his excellence in drafting abilities.

Paul Rincon (Virgo) has talent as an artist and has designed winning display for many Tech Publications.

Helen Kingston (Virgo) lives up to vocal talents of the Earth signs by performing with the Tech Folksingers.

Taurus individual, John Madeka, shows plodding qualities with classroom questions, "I don't quite understand...."

Adeline Sanchez (Taurus) participates in girls track activities.

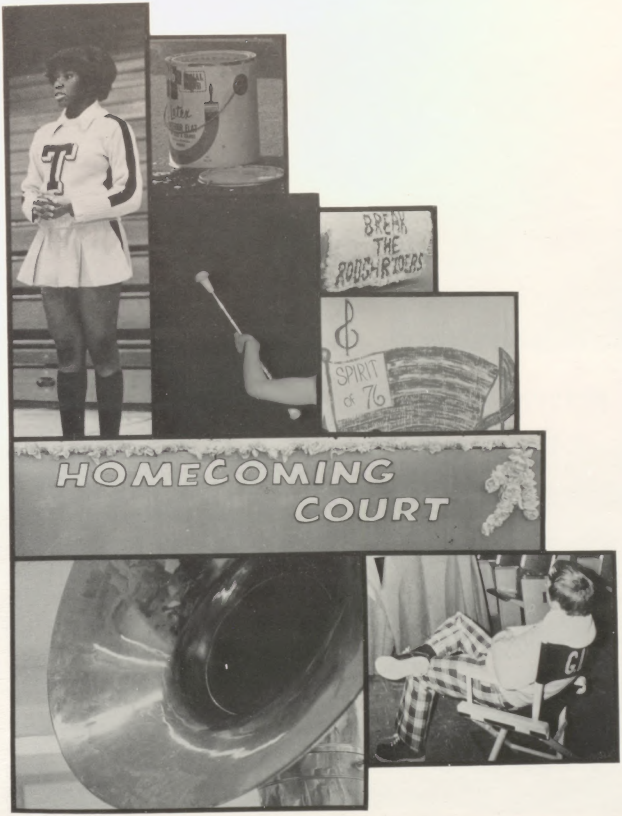

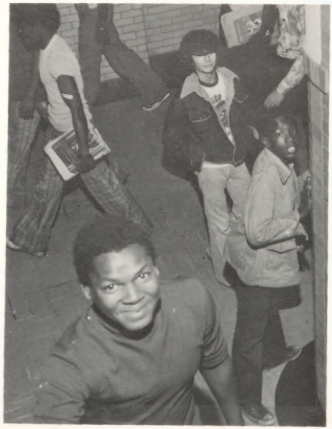

The school scene

BREAK THE ROUGHRIDERS
SPIRIT of 76
HOMECOMING COURT

Tech personalities push Tiger togetherness

Mild, meek Tigers feel their spirits and enthusiasm arise with the advent of fall school activities. Free time during the school day gives time to enhance friendships and relax from the full day of classes. Among other changes was the installing of four-minute passing periods.

Along with other noticeable changes, Tigers returned in the fall of 1976 with more pride and spirit than had been shown in the last few years.

212 graduate

Graduation exercises for the Class of 1976 occured in June outside the school along Becker Street.

Class valedictorian was Joseph Bogusz; salutatorian was Jamie Stefko. Two hundred and twelve seniors graduated.

Senior class officers were: President--Walter Croson; Vice President--Bob Delgado; Secretary--Jessica Villarreal; Treasurer--Juanita Maldonado; Social Chairman--Brenda Camp.

Drama performs calendar of events

Among the Drama productions presented in the spring of 1976 were Auntie Mame (pictured) and Oklahoma. Other scenes include stage crew working toward fall production of "A Funny Thing Happened on the Way to the Forum." Also, art students work together to create a mural.

Spring Sports Honor Athletes

Hammond Tech's Annual Spring Sports' Banquet occurred June 1, 1976, at Wicker Park Social Center.

Among those athletes awarded were: Pete Moore, receiving outstanding senior athlete award, Greg Thompson, receiving the best all-around senior athlete award.

Other awards pictured include Wilfred Sanchez, being awarded the best mental attitude award by Mr. Vieau.

Look to the future -- why not?

The 1975-1976 Hammond Tech Junior-Senior Prom was held at the Wicker Park Pavillion, May 28, 1976. The theme was "Don't look at the past and say why, look at the future and say why not." The Prom colors were of the rainbow. Wilfred Sanchez and Joyce Foster were crowned King and Queen. The theme song was "Colour My World."

VICA
DRAFTING
FORWARD IN THE SPIRIT OF '76
VICA 76

Tech Vica attends state contest

May 7, 1976 saw 32 boys attending the VICA State Contest in Indianapolis.

They competed in the vocational areas of drafting, welding, auto mechanics, electrics, and foods. Drafting won with a display presenting the past, future, mascot, VICA symbol, and Bicentennial.

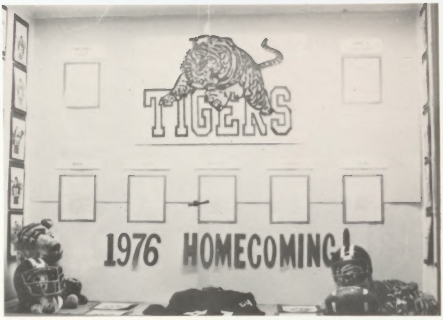

Students participating included Walter Croson and Bartley Watkins (presidents), Tom Burkhardt, Kenney Bridgemon, Mark Fetzko, Joe Klisiak, Juan Lopez, and John Wisniewski.

Participants from welding were Gregg Carnett, Raul Garcia, and Tim Petty; from Auto mechanics, Jim Berg, Greg Pater; from electrics, Joe Bogusz, Mike Trabue, Dave McAnnally, and Joe Laslow.

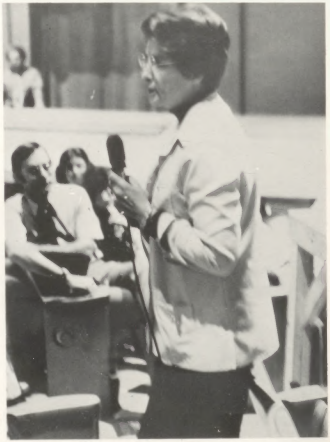

Homecoming week was celebrated October 11 through 15, with October 15 seeing the queen coronation and homecoming game played against East Chicago Roosevelt at Central Field. Activities throughout the week included Kiddie Dress-Up Day, the annual tug of war won by the Class of '79, trike race, and the three-legged race.

Homecoming week spurs spirit

Among the most popular activities of homecoming week, the tricycle race and the three legged race seem to draw the most attention to Tech students. These activities were held after school October 12, behind the school.

Activities pit class against class

The Optimist Club of Hammond presented "A Funny thing Happened On The Way to the Forum" produced by the Tech Theatre Department.

The play took place in the streets of Rome and included a funeral, a chase scene, and many laughs.

Metals fundamentals required of tradesmen

Adaptability is a key word when applying the skills necessary to work in any of the metals trades. A basic knowledge of various metals, their uses and strengths, as well as minor welding and forging techniques, are covered in the introductory course, exploratory metals.

Students who show an interest in any skill or trade related to the metals trades then choose welding, sheet metals, or related areas such as machine shop or pipefitting shop or foundry. After completion of these shops, students may advance to on-the-job training while still in school and receive more benefits. Training enables them to enter many apprenticeship programs.

Secretarial staff keeps school running

Below- Treasurer, Mrs. Bernadine Tyler works on the school's financial records. Upper Right- Office Clerk Helen Eckard looks up students' permanent records.

Right- Mary Berg works on the students schedules.

Upper Left- Head Office Clerk Miss Eloise Smith talks on the phone while the Supply Clerk, Lower Left, Eleanor Dudek keeps records of deliveries. Below- Librarian, Mrs. Olga Chovanec places books into their proper places.

Attendance personnel aids pupils

Above - Social Worker and Attendance Officer Nancy Brundige talks to a student about an attendance problems; while to the right, she looks over the daily attendance sheets. Opposite Page Upper Left- Sandy Wren takes a look at the pink slips turned in. Josephine Johnson, Opposite Page Upper Right, looks for a certain file. Opposite Page Lower Bottom- Mrs. Goldie Hodal.

High School is a waste of time . . .

. . . unless you find a job that turns you on and makes good use of your education. Inland Steel wants only people who want to use everything they've learned in high school--and strongly desire to grow personally and in their chosen field.

Inland's future growth depends on the creativity and productivity of its people. If you want a really challenging opportunity to contribute--with the rewards and responsibilities that go with it--Inland wants to talk to you.

We need action-seeking graduates for opportunities in clerical . . . production . . . technical . . . and craft apprenticeship areas.

Think it over. If you have high aspirations and a good high school record, take time to find out about a career with us.

For many years Hammond Tech Publications students have wanted to put together a yearbook featuring Astrology as its theme. The 1977 Chart Staff decided to take it on.

While researching this vast subject, we came across many problems. Astrology is a very detailed science and what information we found was in too much detail for people to understand and enjoy it. Heres where our next job came in. We then had to transform the information found into an enjoyable style which people would understand and enjoy.

After much research and work, I am pleased to say it all ended in a success. I hope you'll enjoy your 1977 Chart because we enjoyed putting it together for you.

I would like to thank the many people who made it possible for our yearbook to be such a success. I want to thank Sam for her many hours of work and patience. Without her we never would have made it. I want to thank Harry and Bodie for their great picture taking and cooperation at deadline time. Also our own photographer Herbie Waldron, who helped out and did a great job.

Last but not least I want to thank our 1977 Chart Staff who were on the ball and got things going so that we could have as good a yearbook as we had hoped for. Thanks again.
